

VISION ★ VS ★ MEDICAL

Eye exams are important for ensuring that you are seeing your best! At Michiana Eye Center we accept most vision and major medical insurances and have exams covered separately under both. Below is a guide to help you decide what type of coverage to use:

SERVICE:

A **Vision Exam** is recommended every 1-2 years. This exam will screen for eye diseases and provide measurements for eye glasses and/or contacts.

Reasons for a Vision Exam:

- Blurry vision
- Trouble reading up-close
- Squinting

Diagnosis Reasons for Vision Exam:

- Myopia (nearsighted)
- Presbyopia (bifocal age)
- Hyperopia (farsighted)
- Astigmatism
- Routine eye wellness

INSURANCE:

A Vision Exam is covered by vision insurance. If abnormal findings are discovered during your routine eye exam, you will be asked to return for additional testing and evaluation.

OUT-OF-POCKET

- Vision Insurance co-pay
- Contact Lens Fit fee (*may be filed to insurance depending on policy)
- Possible Follow-Up visits when medically necessary.

SERVICE:

A **Medical Exam** is performed to evaluate abnormal findings, and to monitor existing medical conditions.

Diagnosis Reasons for a Medical Exam:

- Cataracts
- Macular Degeneration
- Diabetes
- Strabismus
- Glaucoma
- Eye infections
- Dry eye
- Eyelid disorders
- Iritis

INSURANCE:

A Medical Exam will be billed to your medical insurance.

OUT-OF-POCKET

- Medical Insurance co-pay
- Co-insurance and insurance deductibles
- \$38 Refraction fee
- Contact Lens Fit fee (*if exam for contact lenses)

*it all starts
with the exam.*
